

```
graph TD; subgraph House_Box [House]; H1[+address]; H2[+lotSize]; end; subgraph Condominium_Box [Condominium]; C1[+address]; C2[+numOfFloors]; end; subgraph Trailer_Box [Trailer]; T1[+parkAddress]; end;
```

The diagram illustrates three types of real estate, each with a specific set of attributes:

- House**: Attributes include **+address** and **+lotSize**.
- Condominium**: Attributes include **+address** and **+numOfFloors**.
- Trailer**: Attribute includes **+parkAddress**.

The boxes are arranged in a grid-like pattern, with the background filled with a repeating pattern of the text "UNREGISTERED".
